

1. Run client_setup.exe
2. Next

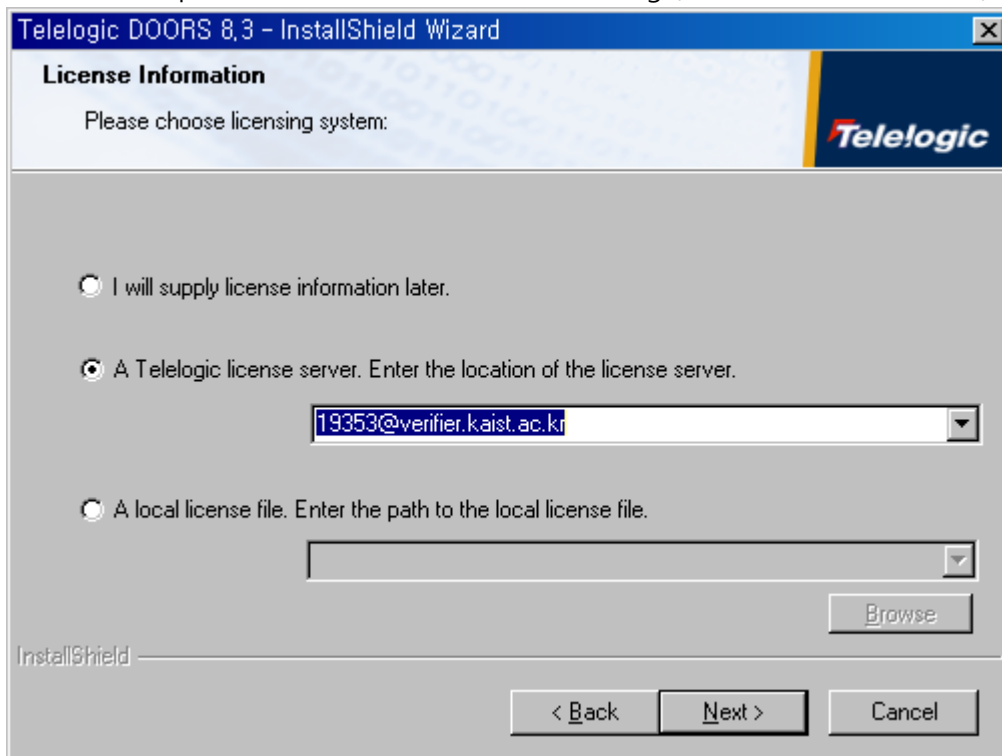

3. Accept the license agreement.

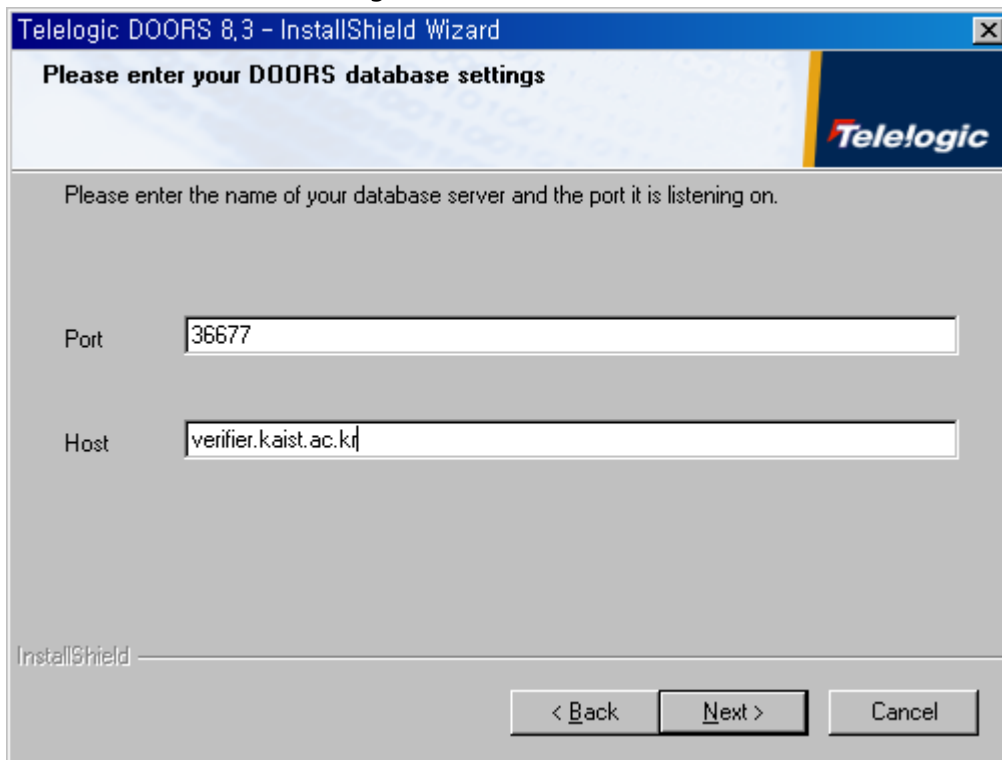

4. Select folder for DOORS

5. Choose and input license information as the following (19353@verifier.kaist.ac.kr)

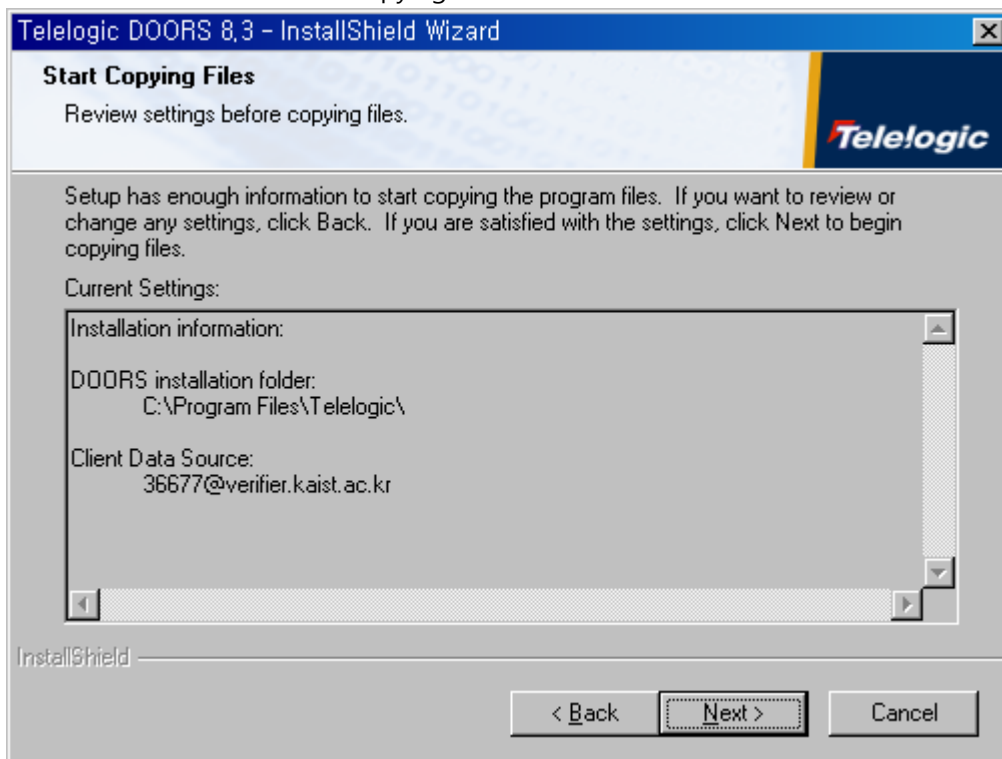

6. Enter DOORS databases settings. Ports is 36677 and Host is verifier.kaist.ac.kr

The screenshot shows a dialog box titled "Telelogic DOORS 8.3 - InstallShield Wizard". The main heading is "Please enter your DOORS database settings". Below this, there is a sub-heading "Please enter the name of your database server and the port it is listening on." There are two input fields: "Port" with the value "36677" and "Host" with the value "verifier.kaist.ac.kr". At the bottom, there are three buttons: "< Back", "Next >", and "Cancel". The Telelogic logo is visible in the top right corner.

7. Check information and start copying file

The screenshot shows a dialog box titled "Telelogic DOORS 8.3 - InstallShield Wizard". The main heading is "Start Copying Files". Below this, there is a sub-heading "Review settings before copying files." There is a paragraph of text: "Setup has enough information to start copying the program files. If you want to review or change any settings, click Back. If you are satisfied with the settings, click Next to begin copying files." Below this, there is a section "Current Settings:" followed by a scrollable text area containing the following information: "Installation information:", "DOORS installation folder: C:\Program Files\Telelogic\", and "Client Data Source: 36677@verifier.kaist.ac.kr". At the bottom, there are three buttons: "< Back", "Next >", and "Cancel". The Telelogic logo is visible in the top right corner.
